

Swedtool® Paddle Rollers

An effective way to remove air bubbles

Swedtool paddle rollers are available in eight different sizes. Our aluminium rollers use plastic bearings but the 21 mm series can upon request also be supplied with brass bearings. The plastic bearings for the 45 mm roller tools are provided with four holes for easy cleaning with solvents. This design makes it easy to drain the roller head of fluids quickly and efficiently. The edges are chamfered to prevent tearing.

Paddle Rollers			
Name	Art no.	Width	Dia.
70/21	50-000101	70mm	21mm
140/21	50-000103	140mm	21mm
140/21-600	50-000105	140mm	21mm
180/21	50-000107	180mm	21mm
70/45	50-000111	70mm	45mm
140/45	50-000112	140mm	45mm
180/45	50-000113	180mm	45mm
250/45	50-000114	250mm	45mm
